

Java Steps For Jenkins GitHub Integration

Step 1: create a folder “sample” in D: drive

Step 2: create a java file with name “HelloWorld.java”

Step 3: Add the following code

```
// Your First Program

class HelloWorld {
    public static void main(String[] args) {
        System.out.println("Hello, World!");
    }
}
```

Step 4: push the above code in the github repository created earlier
